Professional Summary

Motivated 3rd-year Computer Engineering student with a strong foundation in Data Science and Machine Learning. Experienced in building predictive models and OCR pipelines, and currently expanding expertise into LLMs and Agentic AI. Seeking to leverage analytical skills and emerging AI technologies to solve complex, real-world challenges.

Education

B.Tech in Computer Engineering; CGPA: 3.51/4.00

NMIMS School of Technology Management and Engineering

Aug 2023 – Present

Indore, India

Higher Secondary Certificate (Class XII CBSE); 76.23%

Aim Win Academy

May 2021 – May 2022

Indore, India

Secondary School Certificate (Class X CBSE); 85.60%

Choithram School

May 2019 – May 2020

Indore, India

Technical Skills

Languages: Python, C++, SQL, R, Java, HTML, CSS.

AI & Machine Learning: Agentic Workflows, NLP, RAG Pipelines, Prompt Engineering, Gemini API, HuggingFace.

Data Science: Exploratory Data Analysis (EDA), Predictive Modeling, Time Series Forecasting, A/B Testing.

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, XGBoost, TensorFlow, Matplotlib, Seaborn, Streamlit.

Developer Tools: Git, GitHub, Google Colab, Jupyter, Gradio, VS Code.

Experience

AI/ML Research Intern

Ecoreceipt Ltd. (Remote)

May 2025 – Jul 2025

United Kingdom

- Engineered an OCR-based document understanding system to intelligently extract structured data from digital receipts.
- Analyzed large transaction datasets using unsupervised learning to identify spending patterns and consumer anomalies.
- Streamlined data preprocessing pipelines for unstructured text, improving extraction reliability and usability by 20%.
- Integrated theoretical AI models into core production workflows alongside an international R&D team.

Artificial Intelligence & Machine Learning Intern

Hiteshi Infotech Pvt. Ltd.

May 2024 – Jun 2024

Indore, India

- Trained and deployed regression and classification models to solve real-world enterprise data challenges.
- Executed end-to-end machine learning pipelines encompassing data cleaning, feature selection, and model evaluation.
- Automated repetitive data extraction workflows using Python scripting, reducing manual processing time by 40%.

Projects

AI-Powered Agentic Portfolio Assistant | Python, Gemini API, RAG, Gradio

Jan 2026

- Architected a goal-driven Agentic AI framework combining LLM reasoning and document-based knowledge retrieval.
- Deployed a 24/7 autonomous chatbot capable of answering professional inquiries and capturing networking leads.
- Integrated the Pushover API to create a continuous human-in-the-loop feedback system for dynamic knowledge updates.

AI-Driven eDNA Biodiversity Pipeline | Python, Streamlit, XGBoost, BLAST+

Oct 2025

- Developed an automated bioinformatics pipeline for accurate species identification using environmental DNA datasets.
- Accelerated ecological assessments by utilizing clustering algorithms to identify both known and rare taxonomies.
- Designed an interactive Streamlit dashboard to provide real-time visualization of molecular analysis and biodiversity metrics.

NeuroRoute Swarm Intelligence for Edge AI | Python, Federated Learning, Edge AI

Aug 2025

- Implemented an AI framework combining Swarm Intelligence and Federated Learning to optimize autonomous fleet routing.
- Processed 1,000+ simulated driving scenarios to train predictive models focused on maximizing eco-driving scores.
- Measurably reduced simulated carbon emissions and fleet-wide battery consumption via vehicle-to-vehicle synchronization.

Certifications

AI & Machine Learning: Prompt Engineering (IBM Cognitive AI), Machine Learning & AI Workshops (IIT Bombay).

Data & Cloud: Excel Basics for Data Analysis (IBM), Google Cloud Study Jam (Google).

Job Simulations: Software Engineering (Accenture - Forage), Data Analytics (Deloitte - Forage).

Leadership & Extracurriculars

- **Leadership:** Junior Placement Coordinator, NMIMS Indore (Mar 2025 – Present).
- **Technical Memberships:** Technical Club Turing, E-Cell Ukriti, NMIMS Indore.
- **Competitions:** 36-Hour Hackathon, NMIMS Indore (2025,2024).
